

Noni juice has been around for over 2000 years, used for medicinal purposes by the Samoans, Hawaiians, and Tahitians. Recently Noni juice, especially Samoan Noni juice, has become quite the health rage in the United States. More and more health conscience individuals are taking Noni juice to help ailments from depression to pain, to increased sexual desire. "Noni," which translates into "Gift from God," is proving to be just that, a gift from God. Whether you are drinking Samoan Noni juice, Hawaiian Noni juice, or Tahitian Noni juice your body will benefit from the abundance of essential minerals.

### Iron

Iron is an essential mineral in the body that transports oxygen in the blood. Iron deficiency, or anemia has characteristic symptoms: fatigue, weakness, light-headedness, and shortness of breath.

### Potassium

Potassium is an essential mineral in the body. It helps with muscle and nervous system functions. Potassium helps the body regulate blood pressure, stress, anxiety, water balance, and electrolyte functions.

### Copper

Copper is an essential mineral in the body. It's health benefits include: energy production, iron absorption, enzymatic reactions, wound healing, proper growth, and red blood cell production.

### Calcium

Calcium is an essential mineral in the body. Calcium is important for the building of healthy bones and teeth. Deficiencies can lead to bone loss and conditions such as osteoporosis.

### Manganese

Manganese is an essential mineral in the body. Manganese is important for bone development and other metabolic processes within the body like thyroid function, sex hormone production, regulating blood sugar, and fat metabolism.

### Zinc

Zinc is an essential mineral in the body. Zinc is vital for normal growth, strong immunity, and proper wound healing. Zinc also improves the control of diabetes.

### Magnesium

Magnesium is an essential mineral in the body. Magnesium helps nerve and muscles function properly, maintains heart rhythm, keeps bones strong, and aids in the metabolism of proteins.

### Sodium

Sodium is an essential mineral in the body. Sodium helps maintain the acid-base balance within the body, and helps regulate fluids within the body. Sodium is crucial for enzyme production and muscle contraction.

Noni juice, full of essential minerals, has been documented to help in poor digestion, pain, kidney problems, menstrual cramps, inflammation, arthritis, eye problems, bruising, and high

blood pressure. It is no wonder that the Noni juice phenomena has swept over the United States. Samoan Noni juice is made from the purest Noni plants grown in the mineral-rich, volcanic soils of Samoa. See what a little "God like" juice can do for you.
